DYNAMIC SERVICES FOR SAP® SOLUTIONS

COMPLETE PACKAGES FOR HIGH-PERFORMANCE SAP OPERATIONS

Cell phone plans, Internet access and much more are available at an affordable all-inclusive price – so why not your SAP operations, too?

T-Systems now offers complete high-performance packages at a fixed price. They are based on our extensively tried and trusted Dynamic Services for SAP® Solutions. It's a virtualized solution available worldwide that delivers nearly all SAP operations services in a standardized, industrialized form via a private cloud – reducing SAP operating costs by up to 30%.

With the affordable all-inclusive package pricing you now benefit twice over. Choose between three packages – each available in small, medium or large sizes.

Fulltime: the powerful yet affordable option
High Availability: with added protection against outages
Disaster Recovery: including cast-iron disaster protection

Outstanding performance at a moderate price – for reliable SAP operations tailored to your needs.

T-Systems

KEY FACTS IN BRIEF

- Flexible and scalable in terms of infrastructure, performance and operating model
- Delivered from a T-Systems data center or as a customer-specific campus solution with a choice of operating models
- A globally standardized, automated delivery strategy
- E2E responsibility and transparent, usage-based pricing models
- All leading operating system platforms and databases available
- Extensive experience with large-scale SAP T&T projects
- Deep skills in administrating large-scale SAP landscapes
- Long and intensive partnership with SAP, backed by certification
- More than 3,000 SAP Basis and Application Management and Modernization specialists worldwide
- Strategic focus on innovation and ongoing development, e.g. SAP HANA®, mobile solutions, cloud computing
