

T-Systems Singapore recognised as winner for the 2018 Microsoft Singapore – The Datacentre Transformation Partner of Year 2018

Singapore, 28 September 2018 — T-Systems Singapore today announced it was awarded the 2018 Microsoft Singapore – The Datacentre Transformation Partner of Year Award. The company was honoured among a community of top Microsoft channel partners related to partner competencies, cloud technology, entrepreneurial spirit and sales excellence.

T-Systems Singapore was recognised for providing outstanding solutions and services in The Datacentre Transformation Partner of Year. The award recognized our business development efforts and teaming with Microsoft, to help accelerate applications and modernize customer infrastructures to the cloud that includes SAP on Azure.

Arkadiusz Czopor, Managing Director of T-Systems Asia South says, “I want to thank Mr Kevin Wo, Mr Gerald Leo and the rest of Microsoft Singapore team for acknowledging us with this prestigious award. It recognizes our effort in driving and leading our customers’ digital transformation journeys.

Awards were presented for 15 categories, with award finalists and winners selected based on their commitment to customers, their solution’s impact on the market and the exemplary use of Microsoft technologies.

“We congratulate T-Systems Singapore on achieving WINNER of the 2018 Microsoft Singapore - The Datacentre Transformation Partner of Year,” said Gerald Leo, Director, One Commercial Partner and Small & Midmarket Corporate, Microsoft Singapore. “T-Systems Singapore is a prime example of the expertise and innovation we see in our Microsoft Singapore partner community to bring cutting-edge solutions to complex business challenges and providing digital transformation opportunities for our collective customers.”

Microsoft and SAP has a unique working relationship where they co-engineer, and go to market together on SAP S/4HANA on Azure. Teaming together on datacentre transformation to Azure with Microsoft, T-Systems provide enterprise customers the experience and the 'how' to design, integrate and operate mission-critical SAP and non-SAP solutions and applications in the cloud.

The combination of these critical capabilities delivers incremental value to T-Systems customers - Accelerating their performance, productivity, and innovation with seamless enterprise-class support. T-Systems has the hands-on experience in providing managed services for one of the largest SAP HANA deployments on Microsoft Azure in South East Asia exceeding 1M SAPS and double digit TB of compute requirements for HANA.

Find out how you can fast forward the adoption of your cloud transformation with us. Call our sales representative today. Alternatively, you can email us at contact@t-systems.com and we would be happy to discuss further.
