

GDPR – Getting it Done Perfectly Right!

Be on the safe side with
T-Systems Data Provisioning
and Masking for SAP® Solutions

T-Systems Let's power
higher performance

Don't wait, start now!

Take an important
step towards GDPR
conformity

Protect sensitive data
from unauthorized access

Act reliably, traceably and
with the support of tools

Generate selective data for
support and test purposes

Use SAP S/4HANA® Sandbox
with production-related data

T-Systems Data provisioning and masking for SAP® Solutions

With T-Systems Data Provisioning and Masking for SAP® Solutions, you can copy anonymized, yet consistent data from your productive systems into your test systems – An easy route to GDPR conformity.

Within the framework our offering, together with you we identify the personal data of your relevant business processes and set up the tool “ready-to-use”. We can also fill the data into the test system for you.

All ready to go and a predictable cost!

What it is

- Identification of relevant processes and data
- Configuration of the Data Provisioning and Masking Tool
- Time and money savings through standards and best practices
- Filling system with data once, upon request or regularly
- Addition of further packages from the T-Systems Security Offering as needed

Your benefits

- Rapid preparation of project systems, sandboxes, test and training systems on the basis of productive data
- Better test quality, based on productive real time data, real processes and realistic quantity structures
- Possibility of outsourcing certain activities, such as tests, to offshore resources or to third party providers
- Rapid, economical and need-based provision

**Your SAP systems.
Now GDPR
compliant –
supported
by T-Systems**

**GDPR?
Easy.
Go!**

Our Offer

- **Package 1: Initialization**
