

License Model

Prisma Cloud is licensed on the basis of so-called “Prisma Cloud Credits”, which

- can be acquired in increments of 100;
- the license model defines cloud resources and capacities, which are counted, and their costs in the form of Prisma Cloud Credits. Prisma Cloud licenses are available with a term of twelve (12) or thirty-six (36) months.
- cover cloud resources and capacities according to the following table.

Additional Credits need to be purchased if the average quarterly used cloud resources are higher than the purchased Prisma Cloud Credits.

Prisma Cloud™ Enterprise

| Prisma Cloud™ Module | Cloud Resource | Prisma Cloud™ Credits |
|-------------------------------------|---|--|
| Visibility, Compliance & Governance | Any instance of the following AWS Resources: <ul style="list-style-type: none"> ▪ Elastic Compute Cloud (EC2) ▪ Relational Database Service (RDS) ▪ RedShift ▪ Elastic Load Balancing (ELB) ▪ NAT Gateways | 1 Prisma Cloud™ Credit per instance |
| Visibility, Compliance & Governance | Any instance of the following Azure Resources: <ul style="list-style-type: none"> ▪ Virtual Machines ▪ SQL DB ▪ PostgreSQL ▪ SQLManagedInstance ▪ Load Balancer | 1 Prisma Cloud™ Credit per instance |
| Visibility, Compliance & Governance | Any instance of the following GCP Resources: <ul style="list-style-type: none"> ▪ Google Compute Engine (GCE) ▪ Cloud SQL ▪ Load Balancer ▪ Cloud NAT | 1 Prisma Cloud™ Credit per instance |
| Visibility, Compliance & Governance | Any instance of the following Alibaba Resources: <ul style="list-style-type: none"> ▪ Elastic Compute Service (ECS) | 1 Prisma Cloud™ Credit per instance |
| Host Security | Any host system on which a Prisma Cloud Host Defender is installed and on which no containers are running. | 1 Prisma Cloud™ Credit per Host Defender |
| Container Security | Any host system on which the a Prisma Cloud Container Defender is installed, and containers are executed. | 7 Prisma Cloud™ Credits per Container Defender |
| Container Security | Every Prisma Cloud Container Defender that is executed app-embedded in Container as a Service (AWS Fargate, Azure Container Instance, Pivotal Cloud Factory, etc.). | 1 Prisma Cloud™ Credit per Container Defender |
| Serverless Security | Every 1 million execution of Serverless Functions (AWS Lambda, Azure Functions, Google Cloud Functions) protected by Prisma Cloud™. | 1 Prisma Cloud™ Credit |
| Web Application and API Security | Each container or any host system where the protected web application is running. | 30 Prisma Cloud™ Credits |
