

# T-Systems Industries Forum, June 23

## Agenda: Digital Decade – Technologies for a sustainable future

### 1 Live Congress

Plenum (live from Telekom Design Gallery) 10 – 11:30

- **Keynote: Ranga Yogeshwar (TV science journalist)**
- **Technology impulses for a sustainable future**  
Dr. Andreas Greis, SVP Digital Solutions, T-Systems  
Thomas Tschersich, Managing Director CTO / CSO, DT Security
- **Panel: Digitization and sustainability as a long-term success factor. Best practices from the industries**  
Cross-industry panel of experts in conversation with each other and with you

Parallel Breakouts (live webinars) 11.30 - 12:30

Reducing complexity, increasing speed and creating degrees of freedom through digitization - best practices in **chemical & pharma industries**

Technology trends along the supply chain: opportunities for **retail & transport**

Start of the digital decade in **healthcare**: How the patient controls care

Digital technologies vs. regulation. Compliant & innovative at the same time is not a contradiction in terms - sustainable, secure IT sourcing for **banks & insurance companies**

### 2 On Demand Content

9:30 to 14:00 and beyond

#### Industry deep dives

Find a variety of recorded industry-specific sessions, webinars and videos

Automotive & Manufacturing

Travel, Transport, Logistics

Retail

Public & Healthcare

Chemical & Pharma

Financial Services

International sessions (prerecorded) on industry specific topics

### 3 Discussion & Consulting

Exhibition Area (open from 9:30 to 14:00)

Solutions for Automotive & Manufacturing

Solutions for Travel, Transport, Logistics

Solutions for Chemical & Pharma

Solutions for Retail

Solutions for Financial Services

Solutions for Public & Healthcare

Industrial Security

Digital Solutions & Edge Computing

Cloud Transformation
