

T-Systems SAP Roadmap Optimization

Set up project accelerators for your digitalization with SAP solutions and fix the right path for your business

Prepare your SAP S/4HANA migration and the associated cloud sizing in a future-proof, transparent and secure manner. Learn, which success factors are important for your roadmap to accelerate the transformation of your business-critical SAP ERP applications.

With T-Systems you will make the right decision for the path to digitalization with SAP solutions.

- We analyze your IT landscape and develop your strategic roadmap together with you, as a basis for project acceleration and budget optimization. Existing plans will be considered
- Customized and hybrid cloud models help to lower costs and complexity and offer the platform for innovations.
- Benefit from combining an innovative tool framework with our experience of analysis and transformation projects of the last 15 years

Leverage opportunities for optimization and profit from quick wins

Together, we will develop your individual roadmap and thus ensure a transparent and manageable SAP S/4HANA transformation in a structured process. With T-Systems you will make the right decision for the path to digitalization.

What it is

Digital transformation with SAP S/4HANA requires alignment with your company's IT and business strategy.

Value Discovery

- Illustration of SAP S/4HANA's added value for your business processes
- Tool-based assessments with state-of-the-art analysis tools
- Your individual future landscape scenario with the SAP Transformation Navigator
- Preparation of a high-level roadmap

Value Architecture

- Demonstrating innovative SAP S/4HANA technologies
- Flexible operating models in hybrid cloud scenarios
- Integration plan for your entire landscape
- Preparation of a high-level roadmap

Your Benefits

- Individual requirement analysis and optimized procedural methods
- Taking innovative transformation methods such as brown-, blue- and green-field into account
- Best of breed analysis tools
- Optimization of your existing roadmap
- Demand-driven platform operation and multi-cloud models
- Business benefits through SAP S/4HANA
- Discovering potential applications of SAP Cloud Platform (SCP), Machine Learning and Blockchain
