

Migration Readiness Assessment by AWS Premier Partner, T-Systems

Get your customized blueprint for success in the AWS cloud

Charting a course to excellence: accomplish your cloud ambitions with AWS's Cloud Adoption Framework and T-Systems' professional support

For most organizations, the question isn't if they should move the cloud, but how. Adopting Amazon Web Services delivers immense benefits, such as increased business agility, greater operational efficiencies, reduced costs, and improved security.

However, the transition to the cloud is complex; it takes a holistic approach involving numerous considerations.

The principal challenges of cloud migration

Making the wrong choices during the crucial early days and weeks of planning a cloud migration can cost an organization dearly. A stalled launch or poor execution can set progress back by months or even years. Organizations commonly wrestle with:

- **Operational processes** – understanding their current state and the transition necessary to achieve the target state
- **Applications** – application performance and dependencies
- **Governance** – existing business rules and policies, and additional rules and regulations
- **Security and compliance** – mitigating risk and enforcing security policies
- **People and culture** – change management, embedded 'tribal' knowledge, known and hidden cultural issues
- **Decommissioning** – of the on-premises technical environment

Speed your journey and avoid the classic pitfalls with our Migration Readiness Assessment

The Six Perspectives of the AWS Cloud Adoption Framework (CAF)

€1,800* for one day, including assessment, workshop & recommendations

What does the Migration Readiness Assessment involve?

Best practice and tried and tested methodologies are vital! Applying the six perspectives of the AWS Cloud Adoption Framework, we will give you the insights and guidance you need to embark on your cloud journey with total confidence.

Over one day for the highly competitive price of €1,800*, our team will:

- Conduct an in-depth assessment of your current environment, including your business and technology goals and objectives
- Engage with your users and stakeholders to ensure all areas of your organization are both represented and understood
- Present our expert analyses and actionable recommendations at a Migration Readiness Assessment workshop

The value of your assessment; are you ready to leverage the AWS cloud?

We will equip you with the insights you need to chart your course to the cloud the right way and achieve your ambitions.

- Understand your current position as the starting point for your cloud journey
- See your organization's strengths and weaknesses in a cloud migration context
- Learn what actions are necessary for closing gaps and solving fundamental issues before migration

Kick-start your cloud migration plans, and let us partner you on your journey

Best fit & best team

Our team of experts and partners work in harmony to understand your status quo and cloud readiness during our one-day assessment. Consider us an extension of your team.

Scope of work

Your Migration Readiness Assessment workshop includes:

- An overview of our methodologies and deliverables
- The assessment itself, complying with the AWS Cloud Adoption Framework
- Short Q&A sessions with your stakeholders, e.g., C-level, program manager, network, security, operations, IT infrastructure, and finance colleagues
- The workshop concludes with a summary report, your cloud readiness review score, and customized recommendations on the next steps

Time to Invest

9 am to 4 pm

“With T-Systems’ help, we were able to transfer our applications to a more powerful infrastructure without any downtimes.”

Johan Soegiarto, Corporate IT Director of MIKA

*Information & Conditions.

All prices are exclusive of VAT and will be charged as applicable. This offer is aimed exclusively at business customers (no resellers, no partners). The implementation of the workshop depends on availability. The prerequisite for these packages is that the customer is interested in a migration or optimization of their IT landscape and the relevant customer stakeholders are available to take part in the workshop (list available on request). This document is for information purpose only and is not a binding offer. If you are interested, we will be happy to send you the relevant contract documents. These also detail the exact content of the service.
