↗ Register now

Our offer

1. **Introduction (45 minutes)**
   Customer situation, methodology, necessary information

2. **Assessment of the current operation model with the smart AMM analytics tool**

3. **Workshop 1 with AMS experts (three hours)**
   - Validate the results
   - Fine-tuning and joint discussion on the future model of operation

4. **Workshop 2 with management (three hours)**
   - Presentation of solution
   - Define next steps

Deliverables: Best Fit solution roadmap with recommendations on transition and service solutions including benefits of future operation model

Status Q2/2023: Redeemable until December 31, 2023
Offer subject to changes and availability. All services can be executed remotely. On-site presence of your employees or T-Systems employees is not required.

Take your next steps with us and benefit from:

- Zero upfront transition cost
- Approx. 10% or more AMS cost reduction from day one
- Minimum 5% year over year cost reduction through automation & CSI
- Investment of 2% of the contract value for innovation projects

No matter how complex or mature your SAP landscape is and what solution you need, we can drive your SAP landscape into the future.
T-Systems' concept and smart analytics tool for Application Management & Modernization (AMM) provides consulting and application development. We combine state-of-the-art services such as bots, automation and data-driven solutions based on AI, with the perfect balance between cost and quality. This helps you maintain seamless operations while enjoying the advantages of an up-to-date SAP environment like SAP S/4HANA®, SAP Fiori, or public cloud features.

Please don't hesitate to contact us if you have any questions. One of our experts will be in touch with you as soon as possible.
