# T-Systems Public Cloud for SAP® Solutions

Just quickly and simply ramp up your resources for better performance, test systems, accelerate projects, and turbocharge your analytics with SAP HANA.

With T-Systems Public Cloud for SAP Solutions, you can use SAP applications flexibly and at any time. Test-drive SAP HANA and the latest SAP S/4HANA software, also as a perfect supplement for short-term requirements.

A selection of SAP HANA applications are available as fully functional appliances – complete ready-to-go solutions, not stand-alone components. Our pre-defined services are provisioned on a high-performance and SAP-certified IaaS in the Public Cloud.

Use the latest SAP software for hours, days, or any other self-defined time window. And you only are charged for what you actually use during each month – pay as you go.
