analysis solutions**

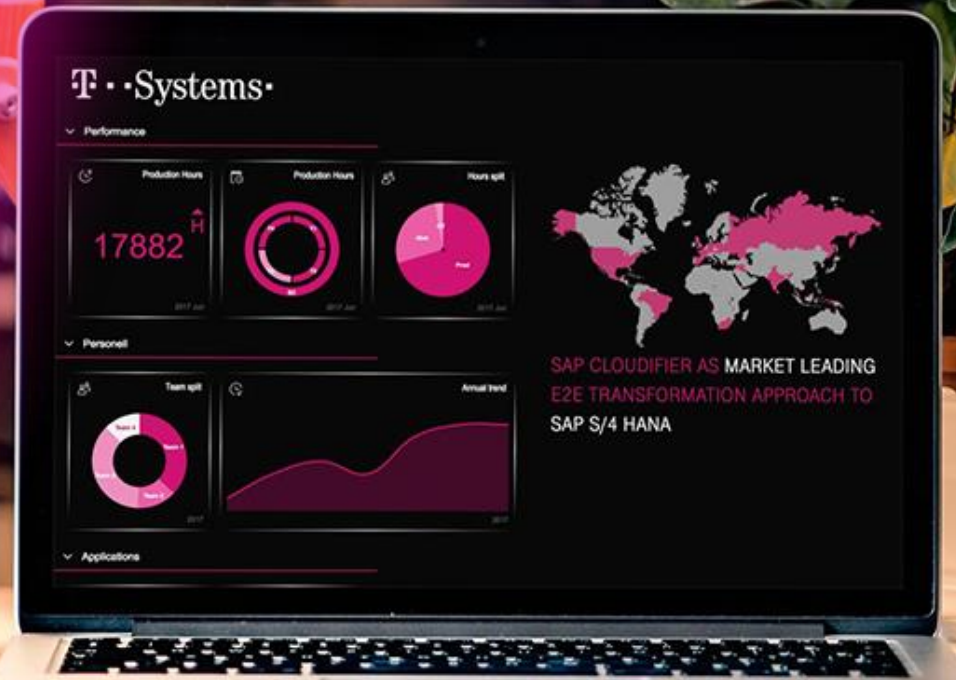

DigiFront

DigiFront is the all-round carefree package in terms of real-time reporting using high-end analytics.

The solution presents company data on tiles in an attractive dashboard.

Users can switch from the overview to the detailed view with one click, and thus display reports, websites, documents as well as static reports and standard reports such as SAP BO Lumira 2.0.

Also available in your own corporate design.

What it is

- Real-time reporting using high-end analytics
- Integration into SAP data warehouses and ERP systems, based on SAP HANA®
- Integration of standard reporting tools possible
- Presentation on several monitors, desktop PCs and mobile end devices
- Drill-down from dashboard view with 14 possible types of KPI tile
- Use, for example, of HTML5/SAP UI5, ABAP, ODATA

Your benefits

- Fast setup in 3 steps: Design, Deploy, Activate
- No additional licenses required
- SAP front-end optimized
- Presentation in Fiori look and feel, and own corporate design
- Detailed view also of reports, documents and websites
- Make decisions immediately

DigiFront facilitates data evaluation from SAP systems

**Also in
Virtual and
Augmented
Reality**
