T-Systems SAP® Leonardo Initiation Package

People, Processes, Things, Tools and Clouds – Simply connected to reach new heights

T··Systems· Let's power higher performance

Don't wait, start now!

Think digitization without limits

Introduce new business models and functions

Integrate innovative technologies

Exploit the maximum value of assets and data

Automate processes

Implement the highest of security standards

T-Systems SAP® Leonardo Initiation Package

Enter a new dimension of digitization with the T-Systems SAP® Leonardo Initiation Package, with regard to your SAP system world and far beyond.

Find the optimum path for your company to discover new opportunities and possibilities regarding the Internet of Things, Blockchain, Machine Learning, Analytics, Big Data and Data Intelligence.

With our proven method, we will determine your individual digitization possibilities and create a well-founded basis for the rapid and risk-free implementation of your digital business processes.

What it is

Your individual starter package will be developed within the framework of clearly defined workshops.

- Your digitization projects are discussed and individual use cases are prioritized.

- A concrete mock-up

- Compact representation and documentation of all results

- Definition of further steps

- Support in the subsequent steps as needed

Your benefits

- 100% consideration of your expectations and processes

- Efficient, risk-free and standardized method

- High flexibility within the individual workshops

- Professional support from T-Systems' experts

- Straightforward, projectable costs

- Substantiated, clear results as the basis for further decisions and implementation

T-Systems SAP® Leonardo Initiation Package

Your launch into the digital age with SAP® Leonardo
